Market Watch

► Fed shies away from June rate hike

A patch of soft economic data has created uncertainty inside the Federal Reserve about when to start raising short-term interest rates, dimming the chances of a move as early as June.

The Telegraph

► Eurozone inflation could be around the corner

Consumer prices stay in negative territory at -0.1pc in March, but monthly price pick up shows hope of recovery.

▶ USD/CAD hits 3-month lows after U.S., Canadian data

The U.S. dollar dropped to three-month lows against its Canadian counterpart on Friday, as a string of disappointing U.S. economic reports continued to weigh on the greenback and positive data from Canada lent support to the local currency.

WBP Online

EUR/USD: Dollar Jumps After Mixed CPI

The dollar headed higher after core inflation rose more than expected, strengthening the outlook for a rate hike this year.

Mark Sturdy

► The dollar will keep on truckin'

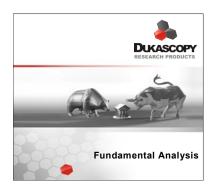

A look at some technical analysis on the euro reveals that after breaking the band of prior lows of 1.1875-1.2040, there is little to stop the market testing parity where a combination of supports (the lower diagonals of a small bear...

Leonid Bershidsky

► Putin bests Obama in Iran

It's much easier to explain why Russian President Vladimir Putin wants a multilateral deal with Iran than U.S. President Barack Obama.
