▶ USD/CAD holds steady near 3-month lows

The U.S. dollar held steady near three-month lows against its Canadian counterpart on Friday, as a tepid U.S. durable goods orders report failed to reassure investors concerning the strength of the nation's recovery.

FXTimes

► EURUSD Approaches 1.09, Disregards Eurogroup Warnings

The EURUSD advanced for a second consecutive day on Friday, disregarding the political deadlock over Greece's bailout program amid a fresh wave of talks between Greece and its Eurozone partners.

Oil firms face further cuts as low prices linger

Oil majors may need deeper cuts to oil and gas exploration and production spending as they grapple with an extended period of low crude prices.

Business Recorder

Gold retreats as global equities hit all-time highs

Gold dipped on Friday and looked set for a third successive weekly loss as strength in global equities, which offset a falling dollar, and uncertainty over the timing of a US rate rise pegged prices in a narrow range.

Greece and the gamble on game theory

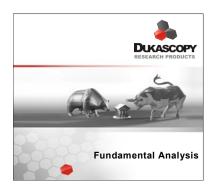

This is yet another "critical" day in the long-running Greek crisis as Eurozone finance ministers meet in Riga, Latvia, to discuss what should be done now given the debate over the terms and conditions on more rescue money for Greece enters its fourth month.

Darrell Delamaide

► EU's bad faith in Greek talks exposes true motives

As a payments squeeze slowly crushes Greece, it is becoming increasingly apparent that its foreign lenders, led by an unbending European Union, are...
