► U.S. natural gas futures sink 3% on warm weather outlook

U.S. natural gas futures tumbled on Monday, as demand for the fuel was likely to remain limited after meteorologists predicted warmer-than-normal temperatures in much of the U.S. in the weeks ahead.

Market Watch

Why the S&P may already be in a bear market

Remember the third quarter? As a refresher: It was nasty. Nastier than a Matt Harvey slider (pre-9th inning). The worst quarter in four years.

Serge Berger

US stocks likely to catch breath in November

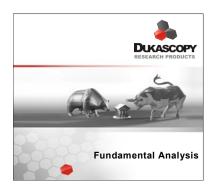

The month of October ended strongly overall for US stocks last week, despite some marginal weakness creeping in on Friday.

Joan Clos

Investing in China is investing in the prosperity of future

China's urban transformation over the past three decades has been impressive. Their impact on the economic and social prosperity of its citizens is remarkable.
