

Geneva Forex Event

– The Forex Network

The Geneva Forex Event was conceived as an opportunity to connect professionals of the Forex industry and to create an evening for them to meet and to network.

It started last year as a monthly project and since then has steadily grown. It's an animated atmosphere where everyone has the opportunity to meet old and new friends, share observations and discuss current business affairs.

The main goal of the event is to create a collegial environment and develop friendships which parallel business relationships.

The Geneva Forex Event brings together Forex Bankers, Financial Professionals and Investors from world-wide financial institutions. Away from the daily formalities, procedures, and pressure at the workplace, it's a perfect opportunity to express views on financial developments and network in a relaxed atmosphere.

MAP of the GFE

Guests fly to Geneva from all over the world to participate in the monthly event. For a better understanding of how diverse and global this project became, glance at the map and note the variety of countries where the participants originate.

The growth and success of the Event is due to the unique character of the evening:

- **TV Corner** hosts FX Analysts, Investment Managers, Chief Strategists, Heads of FX and other department heads from various banks for an interview by the Dukascopy TV broadcasters. They share their thoughts about global financial developments and present and discuss current national and international economic outlooks in light of the foreign exchange markets.
- **Trader of the Month** nomination and award ceremony. Every month Dukascopy Bank selects from its clients the best Trader. The winner receives a personal invitation to visit the bank's office in Geneva, be interviewed by the Dukascopy TV team and be awarded with a fine luxury watch as recognition of the talent and original approaches in the FX market. Winners from five continents demonstrate that skilled traders may be from anywhere in the world. It's an inspiration for anyone who aspires to be successful in the Forex markets.
- During the evening guests can be entertained by Forex games: *Forex IQ* – a quiz game of Forex knowledge, *Buy or Sell* currency – a quick game to guess the direction of the next trade, currency *Price Prediction* – picking the price for the next event a month later, or prediction of the *Strongest Currency* of the evening. All winners are rewarded with a prize, ranging from a bottle of champagne to a helicopter flight around the Mont Blanc Mountain.
- Every Geneva Forex Event evening is distinguished by its mix of music, art, and entertainment. Live jazz, classical music or house may meet fine painting, a sculpture exhibition, a sand art show, a moonwalk or an eastern dance performance. All are pleasures for the eyes and ears.

All Forex experts are invited to register at the website www.genevaforexevent.com in order to receive an invitation to the event.
