

## Dukascopy offers White Label programme

Dukascopy – SWFX Swiss FX Marketplace is now furnishing a White Label programme, allowing institutions to make use of its technology without having to bear the initial costs involved in trading platform development. "It's because we noticed the strong interest stirred by our technology that we have decided to open it for other banking institutions", says Alain Broyon, CEO of Dukascopy – SWFX Swiss FX Marketplace. "From now on, every bank can use this trading platform in order to offer it to their clients, while keeping their own identity."
