Market Watch

▶ [Dollar, yen rise as 'Brexit' fears mount](#)

The dollar strengthened against most of its rivals on Tuesday — with the notable exception of the Japanese yen — as investors feared U.K. voters could unleash turmoil in global markets by choosing to leave the European Union in a referendum set for next week.

Investing.com

▶ [USD/CAD steady at 1-week highs in early trade](#)

The U.S. held steady at one-week highs against its Canadian counterpart on Tuesday, supported by the release of upbeat U.S. retail sales data, while investors awaited the Federal Reserve's upcoming policy statement.

▶ [Remain or leave, U.K. vote will inflict lasting damage](#)

Next week, the United Kingdom votes on whether or not to leave the European Union. More important than a general election, the outcome of the referendum will influence Britain's political and economic fortunes for a...

Neil Staines

▶ [Risk-off, Brexit on?](#)

This morning, the 10 year German Bund yield fell below 0.00% for the first time. The concept of lending the German government money for 10 years...for nothing, was until recently an absurd concept - particularly when we consider the wide debate during the global financial crisis fallout...
